

Side Arms provide hot water slower and are better for low water usage
Can deal with large volume of lime and sediment

Parts Diagram

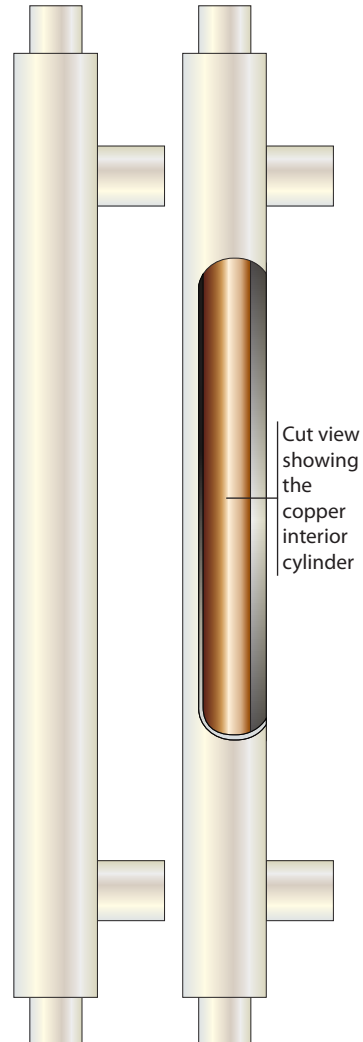

Flat Plate is great for high volume water usage
Not good with Hard Water Systems
Do not require additional pumps

Side Arm vs Heat Exchanger

Side Arms come in various sizes and lengths

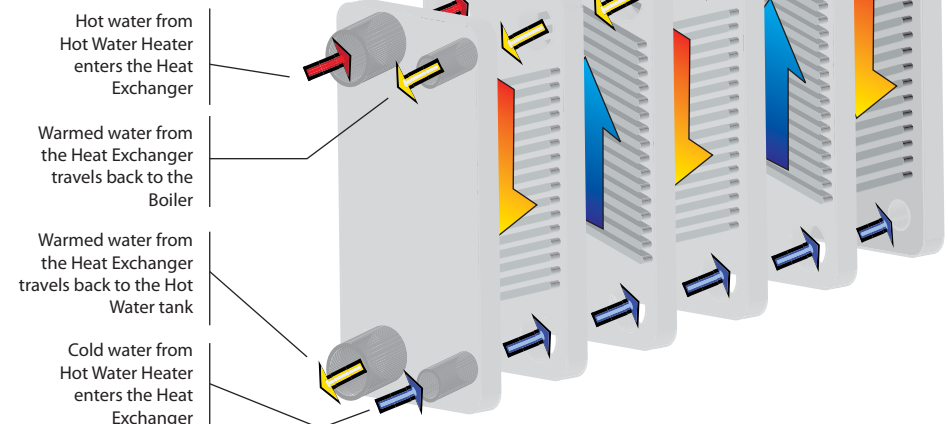

SIDE ARM

FLAT PLATE HEAT EXCHANGER

Flat Plate come in various flat quantities ie 20 40 60 plate

TYPICAL INSTALL WITH HOT WATER TANK
